Robinson College of Business
Georgia State University

By planning early, CIS students can participate in GSU’s co-op work program. Contact the GSU career center for details.

Take CIS 3260 before or with CIS 3300

CIS 2010
Achieving Business Goals Using Information Systems
Every Semester

or

CIS 3260
Introduction to Programming
Every Semester

CIS 3300
Systems Analysis
Every Semester

CIS 3001
Managing Information Technology Projects
Every Semester

Students must complete CIS 3260 with at least a B- or complete the CIS 3265 self-paced course exam with score at least 90% to take other CIS 3xxx or CIS 4xxx courses.

Your CIS major requires seven CIS courses. CIS 2010 does not count toward these seven courses. The CIS core courses, programming, and the CIS capstone make five.

Thus, take any two additional CIS courses to complete your CIS course requirements. If you took the CIS 3260 exam option, you have three additional CIS courses remaining.
